### Report

Innovation Incubator (i2) of Nehru Memorial College organised a talk by Dr.M.S.Vijayaraghavan M.D, president. We Serve Foundation, USA on Empowering Billions. Principal T.Jayaprakasam presided over the event. Dean A.Prabaharan welcomed.

In his talk Dr.M.S.Vijayaraghavan said "India has huge human resources which is the big asset for the nation. The disadvantage is the pessimistic attitude of some of the Indians. The beauty is that poor and young Indians are highly optimistic. They are the real movers of India. Using technology we must bridge the age old gaps like rich poor, rural urban, upper lower castes etc. This is a golden opportunity which must be used well.

Educated youth must come forward to uplift the needy sections of the society. If they come together this nation can go to a level where none can beat it.

Post Graduate students who attended the talk enthusiastically interacted with the speakers and asked several questions on his presentation.

NMC and We Serve Foundation are planning to collaborate in the vital fields of social, scientific and technological developments.

Librarian R.Selvakumar proposed a vote of thanks.

Better Health Care, 10.30 a.m.

# THE HINDU

INDIA'S NATIONAL NEWSPAPER SINCE 1878

## Talk on Empowerment

Innovation Incubator (12) of Nehru Memorial College organised a talk on Empowering Billions by M.S. Vijayaraghavan, president, We Serve Foundation, USA. Mr. Vijayaraghavan said while India's huge human

resource was its biggest asset, pessimism among some was the disadvantage. But significantly, the poor and young Indians were highly optimistic and the real movers of the nation. Technology must be used to bridge the rich-poor, rural-urban and upper-lower castes divide, he said. The Nehru Memorial College and We Serve Foundation are planning to collaborate in the vital fields of social, scientific and technological developments. T. Jayaprakasam, Principal, presided over the event. Dean A. Prabakaran welcomed the gathering.
