

Industrial Visit REPORT

35 Students and 3 Staff members of Department of Chemistry (SF) went to Industrial Visit on 25.02.2019 at 01.30 pm to ICRI (Indian Cardamom Research Institute) Myladumpara, Kerala. It was very useful to gain knowledge about the science behind the cardamom spices. We met the senior scientist, Dr.K.Dhanapal, Head of Pythology Department and Dr.Srikrishnan Rao, Head of the Entomology Department in the conference hall.

They have much information about the job offers, offered there and some guidelines for higher studies to the students. We interacted with them by asking many questions. And they had given answer for all questions. He was also appreciated us for asking questions. The demonstrate the scientific instruments like UV Spectrophotometer, Flame photometer, GC-MS instruments which are used to identify the compounds present in cardamom spices.

It was an interesting, useful and unforgettable journey with department staffs and students and we gained knowledge about it.
