

NEHRU MEMORIAL COLLEGE

PG & RESEARCH DEPARTMENT OF PHYSICS

UG PROGRAMME FEEDBACK ANALYSIS AND ACTION TAKEN REPORT

Student's Feedback

Students want to reduce the portions of few courses. They are badly in need of further improving the communication skill so they want us to conduct more such courses apart from the formal language courses. Students want to introduce direct practical oriented course for skill based courses. They want to provide more computer time in the final year practical so that they can go for computer based jobs.

Parent's Feedback

The parents are physics are satisfied with our current syllabus they want us to import practical skills replacing a fuse in their house hold gadgets and general skill for repairing the electrical installations. They expect their wards to speak fluently in English and other communications skill on par with the students of city college students without fear. Additionally they want the course to become job oriented which will help to get jobs

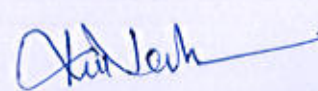

Alumni Feedback

The physics department alumni expect us to modify the future syllabi with suitable changes for improving the communication skill they face problems while facing the group discussions and personal interviews. Also they wants the classes of more interactive style so that they can break the shells and express their views boldly.

Staff Feedback

The physics faculty members suggested modifying the contents of certain courses to that they imparts in-depth knowledge in particular courses. Also they want to inculcate the habit of doing certain practical on their own to gain confidence. They suggested providing subject and general science based student seminars as confidence building measure among the students.

PG programme - Feedback analysis and action taken report

Students' Feedback

Students want their syllabus to help them in attending competitive examinations like GATE, NET. Communication skill is the foremost element, which is required in every sphere of life. The syllabus not only teaches the way to career, but also leads them to improve research skills. Core courses instill in them for love Physics.

Parents' Feedback

The parents are of the opinion that they find a noticeable change in their life studying this master degree course. They make their choices of career at the end of the course. They are satisfied with the exposure to various research areas.

Alumni's feedback

Alumni opine that they need to be given training while they study the course. They say that they have enough exposure to research in wide variety of research areas. Training from MNC companies can be a feather in their cap. They want the staff to conduct group discussions of topics of global importance in areas like climate change, non-conventional energy resources, and nuclear disarmament treaties.

Feedback of Staff members

Staff members comment that students have a great blessing studying this course. This course gives them several avenues for the enrichment of life. The economy of the students can really be booming. This study makes the students encounter life with courage and perseverance.

Feedback of the Employer

Students should hone their skills during the course of their study. Moreover, they insisted that training should be part of their syllabus. Though they are given training after the selection, they want their work to be reduced a bit during the process itself.
